SOUNDCHECK:

Artists need a maximum of 60 minutes for the sound check to be held on the concert stage no less than 3 hours before the start of the concert.

It is absolutely essential that when the musicians arrive on stage, it is already prepared, in order, wired and ready immediately for the sound test, without waiting times for any reason.

Amplification and lighting systems must be efficiently tested BEFORE the musicians arrive on stage. For a classic concert starting at 9 pm, it is therefore a good idea to set up the stage starting from the very early afternoon and wait for the sound check around 6 pm.

Musicians, as a rule, prefer to have dinner immediately after the sound check and before the concert.

STAGE PLAN:

Looking at the stage, the duo's arrangement is:

Paolo Fresu (L) - Pierpaolo Vacca (R)
